

1 DELEGATE WEIDEMEYER: It is the peculiar damage  
2 to the individual which we intend to cover.

3 DELEGATE GILCHRIST: The general public is not  
4 intended to exclude all the people in the immediate  
5 vicinity of the work which is causing the problem, is it?

6 DELEGATE WEIDEMEYER: I didn't get your question.

7 DELEGATE CLARK: Delegate Gilchrist.

8 DELEGATE GILCHRIST: Everybody who is within  
9 sight of something which obstructs the view, for example,  
10 is in exactly the same position. They are the individuals  
11 involved.

12 DELEGATE CLARK: Delegate Weidemeyer.

13 DELEGATE WEIDEMEYER: I would say reading "com-  
14 pensation is required not only where there is an injury  
15 which would become actionable in common law but also in  
16 all cases where it appears that there has been some physi-  
17 cal disturbance of a right either public or private which  
18 an owner of a parcel of land enjoys in connection with its  
19 property and which gives it an additional value and by  
20 reason of such disturbance he has sustained a special  
21 damage in excess of that sustained by the public generally."
